

Received 2024 TSMC Excellent Performance Award for the First Time

December 27, 2024
NuFlare Technology, Inc.

NuFlare Technology, Inc. (President & Representative Director, Jun Takamatsu, HQ: Yokohama-shi, Kanagawa, Japan) is honored to receive TSMC Excellent Performance Award from Taiwan Semiconductor Manufacturing Co., Ltd. (hereafter, TSMC) at the TSMC 2024 Supply Chain Management Forum.

TSMC presented Excellent Performance Awards to suppliers who have made huge contribution to TSMC's goals, projects and others, and as many as 27 companies achieved awards. NFT won the award "Distinguished Mask Writer Collaboration" among them.

This is because our close collaboration with TSMC in advancing mask writer technology, as well as our commitment and continuous support in enhancing production fleet performance are highly appreciated by TSMC. NFT received the award for the first time.

NFT will make every effort to continuously create new value and contribute to the semiconductor industry, humans, and society through semiconductor manufacturing systems.
